****Amadeus only** –“Hotel Security Plus” program eliminates the need for your hotel chain to update your Internova Travel Group table each time a new Amadeus office joins or leaves the Internova Travel Group program(s). For “Hotel Security Plus” to work, your hotel chain must release security of your Internova Travel Group table including Rate Names and Rate Codes to Internova Travel Group master Amadeus office ID. If you have already released security of your Internova Travel Group table, you do not need to repeat this process.

Step 2: Inform all booking avenues (GDS systems, websites, call center, hotel direct) of your participation and what is offered in this program.

Step 3: Notify us immediately when rates are loaded at hotels@internova.com.

Step 4: Ensure rates are loaded and compliant with the terms of our program. Rates must be commissionable and at parity or better than other travel agency or consortia programs and loaded under the **negotiated category in the GDS**.

IMPORTANT NOTE: Ensure rates are loaded correctly for **ALL GDS**, especially **AMADEUS** as this GDS feeds into Internova Travel Group online booking tool, pinSIGHT for non-GDS users.
